Comments Report

3. Faculty members believe that comments or examples are extremely valuable. Please answer the following questions.

3.1) Aspects of this course I found most helpful were...

- Being able to have open discussions about the topics within the class was very helpful. It put light into all different types of point of views.
- His printouts of chapter notes and everything that was important, he wrote on the board.
- Professor Hill has a great way of relating text material to everyday usage. He's interesting and good-humored, which makes learning really easy.
- The teacher went over material well so made it easy to do the work.
- reviewing material every class

3.2) Aspects of this course I would most like to see changed are...

- I actually cant think of anything simply because the class was great
- I wouldn't change a thing. This course was great and I learned a whole lot about myself and the material.
- Nothing, good teacher.
- maybe more visual stuff instead of just auditory.
- open discussion between students

3.3) Your instructor would like to know some specific things he/she did particularly well...

- Good at explaining the material.
- He explained the material very well and didn't allow anyone to disrespect each other based on their opinions
- He is an AWESOME instructor. I would definately recommend him to other students. I liked the way he wrote notes on the board and made the lesson plans interesting. He was NEVER boring and got involved with students opinions and was willing to listen to other inputs on situations.
- Professor Hill's lectures are great. I enjoy how thought-provoking discussions are as well.
- informed me well on subject matter and made it interesing

3.4) Your instructor would like to know some specific things you did not like about the course that he/she should change to improve his/her teaching...

- HE WAS AWESOME!! CHANGE NOTHING
- I can't think of anything negative to say (and for me, that's a rarity).
- The only thing I would like to see added would be to have class debates, that way we can dissect each others views. In result, our overall opinions on the matter will be better polished due to having to defend it.
- n/a
- use more visual learning techniques instead of just auditory learning techniques.
